WE ARE... a professional company dedicated to Spanish language adventures throughout Latin America and Spain. We offer virtual online private Spanish classes, complete immersion in-country study trips to our associated language schools, and Spanish On The Road trips, short term cultural touring trips to all the locations we know so well.

We've partnered with outstanding Spanish language schools in Spain and Latin America, and have sent thousands of participants to learn and live Spanish through adventures in the Spanish speaking world.

## PRIVATE SPANISH CLASSES THROUGH SKYPE OR ZOOM

The best way to learn Spanish is to travel to Latin America or Spain, study the language where it's spoken, and stay there for as long as you can. But sometimes it's just not possible for you to travel. You have a strong need or desire to learn Spanish which just can't wait. Language Link Online is a perfect solution! If you can't go to the foreign culture, let the foreign culture come to you!

We have developed a virtual learning system based on our in depth experience of many years and knowing that you cannot learn a language without interaction with another human being. Interaction, exposure to the language, guidance and trial and error in real situations play a vital role in learning Spanish. Language Link Online gives you a way to learn Spanish effectively through a personalized individual program, directly with a live teacher using free communication software from Skype or Zoom.

Your native Spanish speaking teacher will give you live 60 minute classes, as many as you choose (sold in blocks) and at the hour most convenient for you. You are the only student and receive 100% personal attention.

## How does this work?

Once you enroll we request an excellent teacher for you. She or he will email you with instructions about how to connect for your first class with a mutually agreed time. You will need a Skype or Zoom account. Your first class will assure you of the speed and technical accuracy of the process. Your teacher will verify your level of Spanish and discuss the goals of your program. They will email you any materials appropriate for your individualized private classes.

They will notify you when your block of classes is ending. You can then contact Language Link to extend and pay for your next block of classes, which almost everyone does.

If you are not completely satisfied (and delighted!) with your classes, you can request a full refund of unused classes, less a \$50 charge.

We confidently deliver success!

There are prepared materials included in your course, and many are personalized to your specific needs. You will receive email feedback on assigned exercises and other materials. This is not a packaged program where you simply listen. It is a truly live class prepared just for you, and it can be designed for all Spanish levels and all ages.

This system doesn't work well with just any native Spanish speaker "teacher". The instructors must be fully trained to maximize this new learning platform, and they must be very experienced and skilled to adapt to your specific needs. We also require that their English be adequate to maximize your learning, as we know that the results they will produce for you are simply amazing. Your listening comprehension and speaking skills will improve dramatically in no time.

Virtual Spanish classes are all over the internet. All it takes is research to find costs ranging from \$10 to \$80 per hour. It is not our goal to give you the cheapest program possible. You can find that on your own, but do realize that the quality of your instruction will be comparable to what you have paid. Our fees are an excellent value for the quality received. You're paying for the best so that you're not wasting time and money.
